Android Framework

Samir Dubey

AOSP Engineer @ Zebra Technologies | AOSP Enthusiast | Android Framework | JAVA | Kotlin | Linux
Bengaluru, Karnataka, India

Summary

As an AOSP Engineer, I work with talented AOSP developers to create and maintain high-quality projects for our clients. I use my skills in AOSP, frameworks, and Android to design, code, and debug features and functionalities that meet the user's requirements and expectations.

While working in AOSP, I gained hands-on experience in developing Android Frameworks and customizing Android Open Source Project components. I have worked on many features and components, demonstrating my problem-solving and quick-learning abilities.

I am passionate about Android and AOSP development and am always eager to learn new technologies and tools that can enhance my performance and productivity. I enjoy collaborating with other developers and sharing my knowledge and insights. My goal is to contribute to the innovation and growth of the Android ecosystem and deliver exceptional user experiences.
